Library Management

EBSCO collaborates with libraries to develop a **library services platform** that supports an **open future**.

Library Management

FOLIO is an open-source library services platform that includes core library management functionality and is built on a modern architecture to ensure continuous innovation. It supports the integration of applications from third-party providers and provides improved features and workflows versus legacy systems. The new model for building FOLIO is based on librarian input and collaboration.

EBSCO FOLIO Services

EBSCO offers best-in-class implementation, hosting and support services for libraries who want to use the open-source platform but don't have the resources to do it on their own.

Current, Scholarly Resources

With the prevalence of non-vetted internet content, now it is more important than ever for researchers to have access to **reliable scholarly, peer-reviewed information.**

Current, Scholarly Resources

The Ultimate databases provide content unavailable in other resources and offer unparalleled international journals that give researchers a global perspective.

Pathways to Research

NEW from EBSCO

Education Source Ultimate covers all aspects of educational studies from assessment and technology to literacy, research methodology and more.

Moment Magazine Archive covers Jewish history, the arts, Israel, world news, and Jewish cultural issues from 1975 - 2010.

FinancialFit offers short personal finance lessons, videos and interactive tools to help students and faculty make informed decisions and achieve their financial goals.

Collection Management

Your time — like your collection — is valuable. Maximize both with tools that streamline your workflow whether you are selecting databases, journals and e-books or managing library systems.

Collection Management

EBSCO Journal and e-Package Services provide support for your e-package access and management needs – including transformative agreements. EBSCONET simplifies each step of the subscription management process —title selection, ordering, e-access activation, claims, renewals, and evaluation—all within a single, intuitive online platform. When e-journals and e-packages are ordered through EBSCO, it increases exposure to your subscribed e-journal collection and seamless linking to full text.

EBSCOhost Collection Manager (ECM) allows users to order, build and manage EBSCO eBooks and Flipster digital magazine collections and provides access to MARC records, EBSCO eBook Manager, DRM-free e-books and usage reporting.

GOBI Library Solutions from EBSCO offers more than 18 million print books and e-books and the largest selection of DRM-free e-books to academic, research and special libraries worldwide.

EBSCO Faculty Select directly supports textbook affordability efforts. Through a single, easy-to-use interface, faculty can find and access quality Open Educational Resources (OER) and the EBSCO eBooks Open Access E-Book Collection as well as search and request access to relevant DRM-free e-books.

Library Technology & Discovery

Advanced technology solutions

ensure that students, researchers and faculty can access your library's materials easily, whether they are on campus or online.

Library Technology & Discovery

Privacy, security and accessibility are key considerations in all our product development strategies.

[Learn more](#) about EBSCO's commitment to these areas.

EBSCO Discovery Service (EDS) is an all-inclusive search solution — including a mobile app — with sophisticated functionality to anticipate user intent and to connect researchers to the most relevant scholarly information.

OpenAthens is an advanced access management system that is based on SAML standards to allow institutions to keep single sign-on logins and user data more secure.

Panorama is a modern library analytics platform combining different library and campus data sets to enable insights that were not possible until now. The platform features dynamic, visual dashboards to manipulate and display data about the library and the users it serves.

Stacks is a turnkey web content platform designed specifically for libraries, enabling them to build and manage a responsive and modern library website with ease.

Full Text Finder (FTF) is a next-generation knowledge base, holdings management tool, publication finder and link resolver that integrates with EDS.

Skill-Building Resources

Resources help students **build life skills** and **improve research techniques** and also help enhance staff professional development.

Skill-Building Resources

PrepSTEP for Colleges & Universities and **PrepSTEP for Community Colleges** offer tutorials, practice tests, articles and e-books to support academic skills development, career preparation and workplace readiness.

LearningExpress Job & Career Accelerator includes occupation explorers, job and internship search engines, resume and cover letter builders, and other tips and tools to help job seekers get hired.

LearningExpress Computer Skills contains more than 100 self-directed video tutorials covering the basics of using computers, the internet, and popular software applications from Microsoft and Adobe.

Library & Information Science Source offers journals and periodicals that help librarians and researchers keep pace with the latest trends in a rapidly evolving field.

Flipster digital magazines provide visually appealing content on the latest trends in areas such as finance, politics, business and more. Plus, researchers can access digital magazine content in EBSCOhost and EBSCO Discovery Service search results.

Diversity of Collections

Inclusivity and **diversity** are key issues for academic libraries. It's important for people and groups to feel **represented** in the community as well as in the database information and the curated collections.

Diversity of Collections

Ethnic Diversity Source covers the culture, traditions, social treatment and lived experiences of many ethnic populations.

LGBTQ+ Source now provides 200 videos showing the stories of those in the LGBTQ+ community in addition to the leading full-text publications and primary sources.

Jewish Studies Source offers a multidisciplinary view of the study of Jewish civilization, from its historical origins to the present.

Women's Studies International is a bibliographic database for women's studies and feminist research covering sociology, history and humanities.

Arab World Research Source: Al Masdar offers content pertaining to the Arab World for Arabic studies, Middle Eastern studies and Islamic studies.

African American Historical Serials Collection is an archive that documents the history of African American religious life and culture between 1829 and 1922.

See our complete collection of diversity, equity and inclusion resources [here](#).

E-Book Collections Help Foster an Inclusive and Diverse Climate

To help libraries support diverse writers, illustrators and publishers, EBSCO offers highly curated e-book and audiobook collections such as Asian American Studies, Antiracist Reading, Islamic Studies and more.

Primary Sources

Primary source documents **enhance research** with first-person accounts of history. They help researchers develop a deeper understanding of important issues and events.
