People with hearing loss are at the heart of everything we do because we know they’re placing their trust in us. This is why we’ve not stopped pioneering innovative new technologies, with consistent quality, for over 150 years to help them feel more involved, connected and in control, transforming their lives through the power of sound. Available exclusively through audiologists and hearing care professionals.

ReSound is part of the GN Group – pioneering great sound from world-leading ReSound hearing aids to Jabra office headsets and sports headphones. Founded in 1869, employing over 5,000 people, and listed on NASDAQ OMX Copenhagen, GN makes life sound better.

Confidence starts with a reliable, hassle-free hearing experience where sounds are clear and comfortable all around you.

ReSound ENZO Q, our new Premium-Plus hearing aid for severe-to-profound hearing loss, provides more than just the power you need. It brings together the connectivity, support and personalization you want for the best hearing experience in any environment.

Imagine being able to stream audio, take a call, and chat with a friend in a busy restaurant - all while hearing crystal clear, high quality sound. With ReSound ENZO Q, you can better hear the details of every day life, from speech cues to musical tones.
Research shows that people with severe-to-profound hearing loss experience 60% improvement in hearing speech from the side or behind them in noisy conditions with our technology.

Crystal clear, comfortable, high-quality sound

Severe-to-profound hearing loss requires a complete hearing solution that is more than powerful. ReSound ENZO Q is created with the most advanced technology so you can enjoy clear and comfortable sound, extensive connectivity options, and a 20% longer-lasting battery.

**EXPERIENCE THE POWER OF CLARITY**
Clarity of sound is important in any environment. Personalize your hearing experience to any situation and know that ReSound ENZO Q technology is working to eliminate the annoying whistling or static noise even when you turn up the volume for comfort and clarity.

**HEARING BETTER IN NOISE**
It takes effort and energy trying to hear in noisy places. ReSound ENZO Q uses hearing aid microphones in a unique way that allows you to focus on the sounds you want to hear without losing access to the sounds around you. So follow group conversations more easily with less effort.

*With Binaural Directionality III compared to omni directionality, data on file.

More options for connectivity and direct streaming

ReSound ENZO Q offers a complete ecosystem of connectivity which includes direct streaming capabilities from both iOS and Android devices.* Stream your favorite music, audio book, talk on the phone or even get GPS directions streamed to both of your hearing aids. It’s as simple as using wireless stereo headphones.

**50%** better speech understanding with ReSound

Research shows that when streaming to ReSound hearing aids, users can understand 50% more of the conversation on average, compared to a regular phone call.*

SEAMLESS LISTENING EXPERIENCE

ReSound wireless accessories can help you in challenging listening situations, from watching TV to bustling group conversations around a table. The accessories work together as an intelligent system and provide a seamless listening experience.

*Full streaming compatibility with Android devices requires minimum Android v10 and Bluetooth 5.0 and that functionality has been enabled by the phone manufacturer and service carrier. ReSound cannot guarantee full compatibility with all Android devices.

Personalize to your preferences

ReSound ENZO Q hearing aids automatically adjust to your sound environment, but if more adjustments are needed, you can further personalize your hearing experience with the ReSound Smart 3D app.

The app gives you on-the-spot control right at your fingertips. Select a new program or optimize sounds such as speech focus and noise reduction to suit your current environment.

Convenient remote and real-time support

FACE-TO-FACE, ONLINE HEARING CARE

ReSound Assist Live makes it possible to have face-to-face sessions with your hearing care professional from the comfort of your home. Simply answer a video call from your ReSound Smart 3D app and your hearing care professional can fine-tune your hearing aids remotely.

ADJUSTMENTS ANYTIME

ReSound Assist also lets you send fine-tuning requests to your hearing care professional whenever you need it. You will receive updates from them to download, all via the ReSound Smart 3D app.

Stylishly reliable and robust

No matter how active you are, rest assured that ReSound ENZO Q is resilient and robust, and designed to withstand the demands of all users.

ReSound ENZO Q features two powerful Behind-the-Ear models in 13 colors to suit your style.

We know you rely on your hearing aids. Therefore, each ReSound ENZO Q hearing aid is treated with a protective iSolate nanotech coating, which repels water, earwax and debris to protect your hearing aids.
