- Get to know your hearing aid
- What you need to know
- Programs when to use beeps
- Getting started: On/Off function
- How to charge your hearing aids
- Regular care & maintenance

**What you need to know**
**Getting started: On/Off function**
Your hearing aids are automatically turned on when they are removed from the hearing aid charger. They can also be turned on and off manually by pressing the push button for 5 seconds.

**How to charge your hearing aids**
- Plug the power adaptor into a power outlet and connect the charging cable to the hearing aid charger.
- Place both hearing aids in the charging bays. The right side is marked with a red dot and the left side is marked by a blue dot.
- The LED on the hearing aids slowly pulsates when charging and will stay solid when fully charged.

**Regular care & maintenance**
- **Daily:** Clean your hearing aid.
- Keep your hearing aids dry. Clean the hearing aids using a soft cloth or tissue.

**Weekly:** Clean the receiver tubes and domes (3).
- Use a soft cloth to clean the receiver tube and dome on the outside. Do not use water when you are cleaning the receiver tubes.

2. Then push the largest "petal" back,
1. Push the largest petal away from this:
2. Make sure that the new dome is properly and securely maintained.
3. Push the new dome over the receiver. ReSound tulip domes consist of two "petals". It is important to note that the larger petal is always on the outside of the tulip dome.
To deactivate Tulip dome:
1. Turn the hearing aids off and then on.
