RESOUND KEY HIGHLIGHTS

Clear sound and advanced audiological features

A complete family of devices in the essentials category

Connectivity with Bluetooth® Low Energy

Direct audio streaming from iOS® and Android™ devices

Compatible with the complete line of ReSound Wireless Accessories

ReSound Assist Remote Fine-Tuning and Live Assistance

A HOLISTIC APPROACH TO GREATER HEARING

With ReSound Key, your patients will enjoy the clear, natural sound quality they need to join in conversations, even in noise.

Patients benefit from multiple features that use the power of binaural hearing and natural sound quality.

- Sounds up to 116 dB SPL are captured very clearly
- Warp compression maps loudness and frequencies based on the function of the human cochlea
- NoiseTracker II reduces background noise for easier listening
- DFS Ultra II adapts to changing environments to prevent feedback and maintain appropriate gain

OFFER REMOTE HEARING CARE

ReSound Assist Remote Fine-tuning and Live Assistance are two powerful options for providing hearing care remotely for the best possible fitting, counseling and support in a convenient and safe way. Your patients simply need to download the ReSound Smart 3D app to get started.

INTUITIVE AND EFFICIENT FITTINGS

ReSound Smart Fit™ makes fittings easier than ever. Confidently rely on the default feature settings and ensure a better, more comfortable first fit for your patients with Prescribed First Fit and percent gain adjustments. Also benefit from high flexibility in making fine-tuning adjustments when needed.
