

ReSound GN

Learn how to wear your hearing aids correctly, personalise your sound experience, and request assistance from your hearing care professional with the ReSound Smart 3D app.

Whether you've worn hearing aids before or this is your first time, ReSound makes hearing easier than ever – it feels almost like not wearing hearing aids at all. Noisy situations? No problem!

Re-join conversations. Jump back into socialising.

And... discover your world of sound.

# Stay connected

Connectivity and accessories

# Bring harmony to TV time

When it's challenging to enjoy TV with your family, it's great to have a little extra help.

## TV-Streamer+

The new TV-Streamer+\* gives you immediate speech clarity and sends the sound directly to your hearing aids at the volume you prefer. If you are more hearing aid users in the room, you can also enjoy sound together by easily connecting to the TV-Streamer+.

## TV-Streamer 2

Get the sound straight to your hearing aids with the ReSound TV-Streamer 2 for clear audio at the preferred volume.

**Hear your best in more situations**

Get the most out of your hearing experience to clearly hear the TV, phone calls, and through the noise. Great connectivity options are at your fingertips.

TV-Streamer+

TV-Streamer 2

\*TV-Streamer+ is compatible with ReSound Nexia.

# Crystal clear phone calls

Stay connected wherever you are with crystal clear phone calls. Enjoy hands-free calls from the newest mobile devices when your hands are full and use your hearing aids like a wireless headset.

## Made for iPhone and iPad

Connect your hearing aids to your iPhone or iPad. Make calls hands-free\* and stream music, videos, or other audio directly to your hearing aids and use the iPhone or iPad to control volume or change programs on the hearing aids.

\* Hands-free calls work with ReSound Nexia, ReSound OMNIA and ReSound ONE and are compatible with iPhone 11 or later, iPad Pro 12.9-inch (5th generation), iPad Pro 11-inch (3rd generation), iPad Air (4th generation), and iPad mini (6th generation) or later, with software updates iOS 15.3 and iPad iOS 15.3 or later.

## Connect to Android

Use your Android device to stream audio to your hearing aids or control volume and other setting via the ReSound Smart 3D™ app.

Get new audio possibilities for Android devices with the new Bluetooth® Low Energy Audio technology, enabling a future-ready connected experience like hands-free calls\*.

## To take calls, just double-tap on your ear

Answer calls via your ReSound Nexia™ hearing aids – just double-tap on your ear or one of the hearing aids when you want to answer the call.

## Phone Clip+

If direct streaming is not possible, use the Phone Clip+ for crystal clear phone calls, mute background noise while you talk, or stream music, podcasts, or any audio from your phone.

Phone Clip+

\* Compatible with ReSound Nexia and mobile devices with Bluetooth 5.3.

# Control at your fingertips

Take control of your hearing when you need it for instant hearing clarity or comfort – even in noisy situations, you can easily focus on conversations.

## ReSound Smart 3D app

Use the ReSound Smart 3D app on your mobile device to take control of your hearing and adjust volume or change programs to focus on what you want to hear.

## Remote Control

At the touch of a button, the Remote Control and Remote Control 2 give you intuitive control over volume and program settings. The latter also gives you access to all your settings and connections on your device's display.

**Remote Control**

**Remote Control 2**

# Are you finding it hard to hear conversations?

Even with the best hearing aids, enjoying conversations can be difficult when everyday life is filled with noise. There is help to make hearing sound natural and voices clear, even over surrounding sounds. So, you can relax, understand, and join in.

## Remote microphones

The Micro Mic and Multi Mic enable you to hear more of everything. The voice of a loved one, a teacher, a colleague – whether you are in a noisy place or far away, you can hear them clearly. Simply hand the microphone to the speaker and have the voice streamed directly to your hearing aids.

Connect the Micro Mic and Multi Mic to any ReSound wireless hearing aid and feel confident that you won't miss a beat in the conversation.
