

## **RectorSeal**

### **Microbiological Summary**

**Subject:** Fungal Resistance Testing

The following RectorSeal samples were submitted to Biosan Laboratories, Inc. for fungal resistance testing according to the ASTM G21-13 method:

**Metacaulk® 1000**  
**Metacaulk® 1200**  
**Metacaulk® MC 150+**  
**Flamesafe® FS900+**

All samples showed a growth rating of zero (indicating no fungal growth) at the conclusion of the four week test.
