

A CSW Industrials Company

RectorSeal

Innovations for the Trades

The Beginnings of RectorSeal

A CSW Industrials Company

The company was established in 1937 in Houston, Texas, as a division of Rector Well Equipment Company of Fort Worth, Texas.

RectorSeal's initial product was a thread sealant (RectorSeal No.1) for oil field threaded fittings.

The company grew steadily selling RectorSeal No. 1.

It was RectorSeal No. 5, introduced in 1950, that would catapult the company to new heights.

RectorSeal's growth captured the interest of the Capital Southwest Corporation, a publicly held company headquartered in Dallas, TX led to their purchasing RectorSeal in 1969.

Today we are a key part of our parent company CSW Industrials – a diversified industrial growth company with industry-leading operations in three segments:

Contractor Solutions

Engineered Building Solutions

Specialized Reliability Solutions

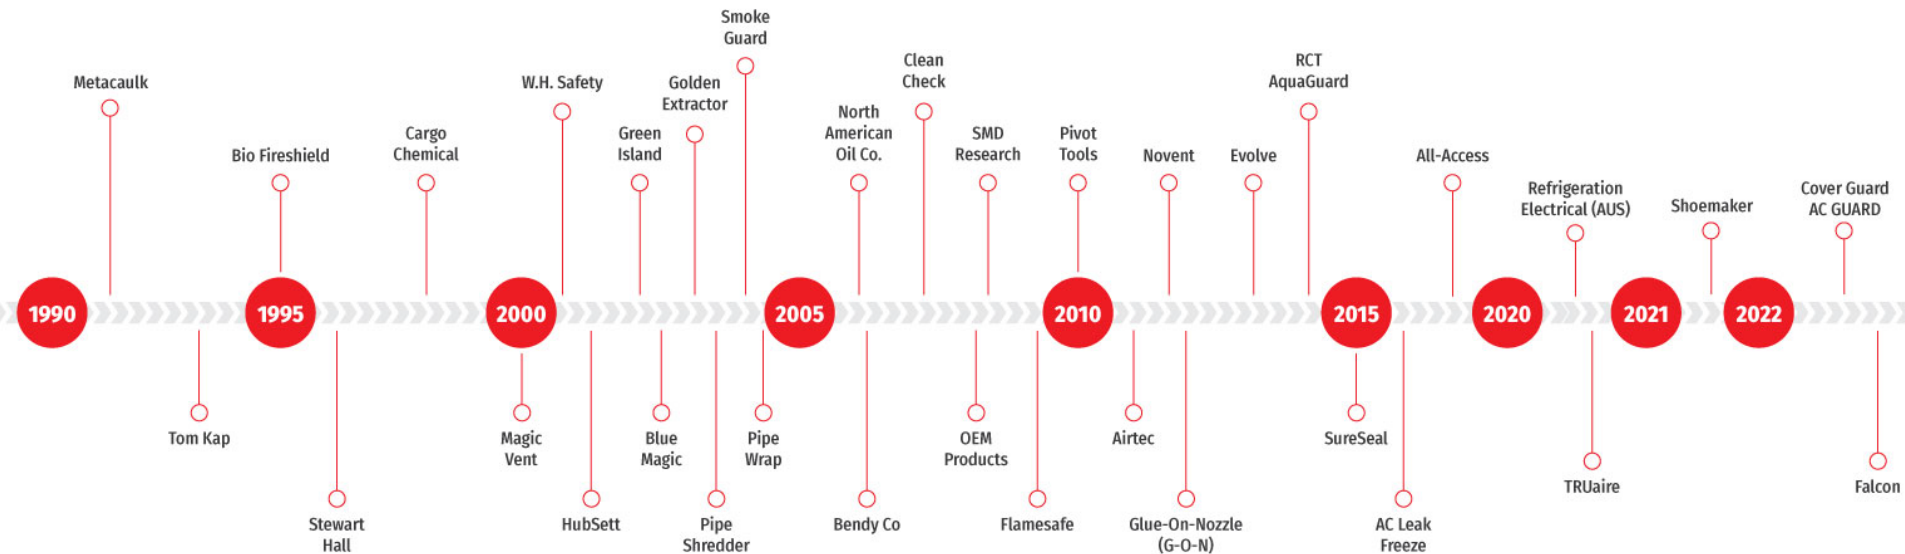

Acquisition Strategy

A CSW Industrials Company

RectorSeal plays a leading role in CSWI's Contractor Solutions segment and continues to **grow and expand its product portfolio through an acquisition strategy** that began in the 1990s.

RectorSeal is recognized as a leading provider of quality solutions for the professional trades serving heating, ventilation, and air conditioning (HVAC/R), plumbing, electrical, and construction markets.

HVAC/R

Plumbing

Firestop

Electrical

Products for installation, maintenance, and repairs of HVAC systems.

metacaulk®

Why RectorSeal?

Product Development | Product Quality | Innovation

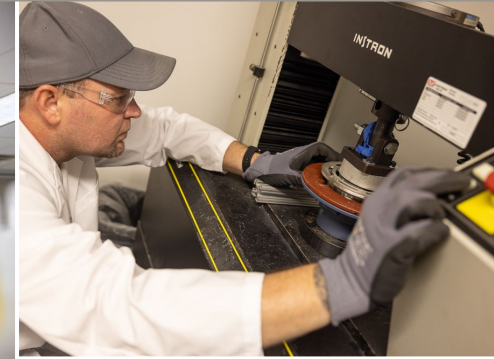

Strong Product Development

A CSW Industrials Company

RectorsSeal has invested in key capabilities to develop and source industry leading products.

This includes investments in talented chemical engineering and mechanical engineering teams, on-site UL certified testing facilities to commercialize products and unique partnerships with inventors who are within the trades.

Testing to Ensure Product Quality

A CSW Industrials Company

Whether it is the on-site laboratory to validate chemical batch quality or our multi-layered rigorous testing of condensate switches, **RectorSeal has invested to ensure that products we manufacture and source can meet the needs of contractors on the job site.**

Consistently Recognized for Innovation

RectorSeal is consistently recognized as an innovator among the trades, as evidenced by its products regularly receiving Dealer Design awards from industry leading publications and industry recognition as a leading manufacturer in the trades.
