PairCoil
Pre-Insulated, Paired Lineset for Mini-Split Installation

NEW! Length markings for fast, accurate measuring & cutting.

- Strong, and durable ASTM B280 industry standard copper tubing
- Fire retardant, industrial grade, cross-polyethylene insulation
- Embossed film coating allows easier installation
- 1/2" insulation thickness meets IMC & IRC code
- Labor-saving, single-run installation of both lines

25, 35, 50 ft lengths
4 paired sizes:
- 1/4" x 3/8"
- 1/4" x 1/2"
- 1/4" x 5/8"
- 3/8" x 5/8"

Available through HVAC wholesale distributors.

**Additional information:**

- 1/2-inch insulation thickness allows space with all lineset protection ducting such as Fortress and SlimDuct.
- Accommodates operating pressures of up to 600 psi.
- Meets ASTM International specification standard B280 seamless copper tube for air-conditioning and refrigeration field service; and C534 for preformed flexible, elastomeric cellular thermal insulation.
- Malleable copper tubing and insulation easily shapes to fit any application.
- Sturdy, protective cardboard box
- Easily stacked without damaging lineset
- Fully illustrated package
- Copper tubing allows bending, shaping and forming without kinking.
- Durable industrial-grade white insulation reflects solar heat, is water-resistant, and features a hardened, but ductile surface. It does not absorb moisture or prematurely disintegrate from UV light or freeze/thaw cycles.
- UV light and wear-resistant coating will not tear. Low-friction surface allows easy pulling. Embossed incremental two-foot inscriptions for hands-free measuring.
- 50’ roll can be freely cut to appropriate length
- Paircoil is easily separated by hand without cutting tools.
