**APPLICATION**
- Automatic water leak detection
  - Detects water leaks in the places that are prone to leaking such as under the sink, near water heaters, washing machines and dishwashers
  - Close the shutoff unit and block the water supply into the premises when leaks are detected
- Designed for all types of dwellings and businesses - private homes, condominiums, multi-family apartments, business premises and hotels

**FEATURES**
- Easy, fast installation - No drilling and cable trenching required
- No electrician is required
- Communicates through mobile App with real time status
- Immediately senses water leaks using water leak detectors
- Reports ambient temperature in real time
- Performs monthly cycle test
- Smart shutoff unit controller
- Robust, secured and operational at all time

<td>Appliance Leak Shutoff</td>
<td>1</td>
</tr>
</tbody>
</table>

**APPLICATION**
- Designed to protect homes from damages caused by a leaking water heater, washing machine or other appliance
  - When a leak is detected by the water leak detector, the automatic intake shutoff activates to close off the water source
  - No wi-fi monitoring capability

**FEATURES**
- Cold water shut off unit
- 10 ft cable
- Water leak detector
- Battery operated
- Easy installation
- Valve meets the requirements of NSF/ANSI 372
