Description
In just minutes, non-acid COIL-RITE removes grime, oil, grease and dust from air conditioning coils, air handling equipment, as well as electronic and permanent air filters and all mechanical equipment. Powerful surfactant chemicals actually lift grease and dirt off normally inaccessible surfaces. A COIL-RITE cleaning reduces head pressure on over-heated compressors, avoids premature equipment breakdown, increases equipment efficiency and decreases power consumption and costs. It is safe for all metals, including aluminum, when used as directed.

Instructions
Read SDS, all directions, hazard and precautionary statements before using this product.
DIRECTIONS FOR USE:
1. Appropriately dilute with water as needed and detailed below.
   For extremely dirty coils & equipment - 1 part COIL-RITE to 4 parts water.
   For all types of filters - 1 part COIL-RITE to 5 parts water.
   For continuous maintenance - 1 part COIL-RITE to 5-10 parts water.
2. Shut off system.
3. Apply the diluted solution with a trigger sprayer, hand powered tank or high pressure washer. Use a brush to help faster penetration of hard encrusted dirt.
4. Allow 5 to 10 minutes soaking time before rinsing. On an operating evaporator coil, rinsing is not required since the condensate will flush out all the loosened slime and dirt.
5. Rinsing the evaporator coil is not necessary if the unit will be turned on soon after cleaning, but a thorough rinsing with low-pressure water will ensure optimum results.

Applications
Coil-Rite can be safely used on aluminum, copper, stainless steel and painted surfaces. It is formulated to clean metal coils, fiber or metal mesh filters, and other metal surfaces where acids should not be used.

Characteristics | Features
- Cleans grime, oil, grease and dust
- Non-acid, Non-flammable
- Can be used indoors and outdoors
- Will not harm copper or aluminum
- Biodegradable
- Low foam

Precautionary Statements

**WARNING!** Causes mild skin and serious eye irritation.

Contains Gylcol Ether 111-76-2 and Surfactant 68412-54-4.

Prevention:
- Avoid breathing dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing.
- Wear protective gloves/protective clothing/eye protection/face protection. Use only outdoors or in a well-ventilated area.

Response - If In Eyes:
- Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

If On Skin (or hair):
- Take off all contaminated clothing immediately. Rinse skin with water/shower. Wash all contaminated clothing before reuse.

Storage:
- Store in a well-ventilated place. Keep cool.

Disposal:
- Dispose of contents/container to an approved waste disposal plant.

Keep Out Of Reach Of Children.

For chemical emergency, spill, leak, fire, exposure or accident, call CHEMTREC - Day or Night 1-800-424-9300.
