SAFETY DATA SHEET

PETE™ 602L
Medium body, low VOC PVC solvent cement

SECTION 1 – PRODUCT AND COMPANY INFORMATION

Product Name
Pete™ 602L Low VOC

Product Codes
55101, 55105, 55107, 55310, 55922, 55924, 55926, 55928, 55916

Chemical Family
Organic

Use
PVC solvent cement

Manufacturer’s Name
RectorSeal, LLC
2601 Spenwick Drive
Houston, Texas 77055 USA

Date of Validation
August 26, 2019

Date of Preparation
August 26, 2019

HMIS Codes
Health 2
Flammability 3
Reactivity 1
PPI B

Emergency Telephone No.
Chemtrec 24 Hours
(800)-424-9300 USA
(703)-527-3887 International

Technical Service Telephone No.
(800)-231-3345 or (713)-263-8001

SECTION 2 – HAZARDS IDENTIFICATION

GHS CLASSIFICATION

Physical Hazards
Flammable Liquid, Category 2

Health Hazards

Acute Toxicity:
Oral: Category 4
Dermal: Category 5
Inhalation: Category 4
Skin Corrosion/Irritation: Category 3
Serious Eye Damage/Eye Irritation: Category 2A
Skin Sensitization: Not Classified
Respiratory Sensitization: Not Classified
Germ Cell Mutagenicity: Not Classified
Carcinogenicity: Category 2
Reproductive Toxicology: Not Classified
Target Organ Systemic Toxicity - Single Exposure: Category 3
Target Organ Systemic Toxicity - Repeated Exposure: Not Classified
Aspiration Toxicity: Not Classified

**GHS Label elements, including precautionary statements**

GHS02: Flammable
GHS08: Severe Health Hazards
GHS07: Exclamation Mark
Signal Word: **Danger**

**Hazard Statements:**

H225 - Highly flammable liquid and vapor.
H302 - Harmful if swallowed.
H313 - May be harmful in contact with skin.
H316 - Causes mild skin irritation.
H318 - Causes serious eye damage.
H319 - Causes serious eye irritation.
H335 + H336 - May cause respiratory irritation, and drowsiness or dizziness.
H351 – Suspected of causing cancer. Contains a chemical classified by the US EPA as a suspected possible carcinogen.

**Precautionary Statements:**

P102 - Keep out of reach of children.
P210 - Keep away from heat/sparks/open flames/hot surfaces – no smoking.
P240 - Ground/Bond container and receiving equipment.
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray.
P262 - Do not get in eyes, on skin, or on clothing.
P264 - Wash hands thoroughly after handling.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P301 + P310 - IF SWALLOWED: Immediately call a **POISON CENTER** or doctor/physician.
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P362 - Take off contaminated clothing and wash before reuse.

EUH066 - Repeated exposure may cause skin dryness or cracking.
Hazards not otherwise classified (HNOC) or not covered by GHS.
May form explosive peroxides.

**Summary Of Acute Hazards**

Overexposure may cause coughing, shortness of breath, dizziness, central nervous system depression, intoxication and collapse. It may cause irritation to the respiratory tract and to other mucous membranes.

**Route Of Exposure, Signs And Symptoms**

**INHALATION**

Overexposure may cause coughing, shortness of breath, dizziness, central nervous system depression, intoxication and collapse. It may cause irritation to the respiratory tract and to other mucous membranes.

**EYE CONTACT**

Severely irritating. If not removed promptly, will injure eye tissue, which can result in permanent damage.
SKIN CONTACT
Frequent or prolonged contact may irritate and cause dermatitis. Low order of toxicity.

INGESTION
Low order of toxicity. Small amounts of the liquid aspirated into the respiratory system during ingestion, or from vomiting, may cause bronchiopneumonia or pulmonary edema.

SUMMARY OF CHRONIC HAZARDS
Repeated or prolonged exposure may cause signs of central nervous system depression and respiratory irritation. This material has been shown to induce tumors in laboratory animals.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
Individuals with pre-existing or chronic diseases of the eyes, skin, respiratory system, cardiovascular system, gastrointestinal system, liver, or kidneys may have increased susceptibility to excessive exposure.

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

</tr>
</tbody>
</table>
SECTION 4 – FIRST AID MEASURES

If inhaled:  If overcome by exposure, remove victim to fresh air immediately. Give oxygen or artificial respiration as needed. Obtain emergency medical attention. Prompt action is essential.

If on skin:  Immediately flush with large amounts of water; use soap if available. Remove contaminated clothing.

If in eyes:  Immediately flush with large amounts of water for at least 15 minutes. Get prompt medical attention.

If swallowed:  If swallowed, DO NOT induce vomiting. Keep at rest. Get prompt medical attention.

SECTION 5 – FIRE FIGHTING MEASURES

Conditions Of Flammability
Flammable in the presence of a source of ignition when the temperature is above the flash point. Keep away from heat/sparks/open flame/hot surface. No smoking.

Suitable Extinguishing Media
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special Protective Equipment For Fire-Fighters
Wear self contained breathing apparatus for fire fighting if necessary.

Hazardous Combustion Products
Hazardous decomposition products formed under fire conditions (carbon oxides.)

Further Information
Use water spray to cool unopened containers.

Unusual Fire And Explosion Hazards: Extremely flammable – very low flash point. Vapors are heavier than air and may travel along ground or to low spots at considerable distance to a source of ignition resulting in potential flashback. Burning liquid may float on water. Heat may build up pressure and rupture closed containers.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal Precautions
Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Ventilate area with natural or explosion-proof, forced air ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Environmental Precautions
Prevent further leakage or spillage if safe to do so. Avoid flushing into sewers, drains, waterways, and soil.

Methods And Materials For Containment And Cleaning Up
Use absorbent materials to prevent footing hazard and to contain, then collect and place in container for disposal according to local regulations (see section 13).
Section 8 – Exposure Controls/Personal Protection

Respiratory Protection (Specify Type): In confined poorly ventilated areas, use NIOSH/MSHA approved air purifying or supplied air purifying or supplied air respirators.

Ventilation – Local Exhaust: Acceptable

Special: Explosion-proof equipment.

Mechanical (General): Preferable.

Other: N/A

Protective Gloves: Wear rubber gloves.

Eye Protection: Chemical splash goggles (ANSI Z-87.1 or equivalent)

Other Protective Clothing Or Equipment: Coveralls recommended.

Work/Hygienic Practices: Where use can result in skin contact, wash exposed areas thoroughly before eating, drinking, smoking, or leaving work area. Launder contaminated clothing before reuse.

</tbody>
</table>

SECTION 10 – STABILITY AND REACTIVITY

**Chemical Stability**: Stable under recommended storage conditions.

**Possibility of Hazardous Reactions**: Can form potentially explosive peroxides upon long standing in air. Vapors may form explosive mixture with air.

**Conditions To Avoid**: Heat, sparks, open flames, and strong oxidizing, acidic and basic conditions.

**Incompatibility (Materials To Avoid)**: Oxidizers, acids and bases.

**Hazardous Decomposition Products**: CO, CO₂, HCl and fragmented hydrocarbons.

**Hazardous Polymerization**: Will not occur.

SECTION 11 – TOXICOLOGY INFORMATION

**Chronic Health Hazards**
No ingredient in this product is an IARC, NTP or OSHA listed carcinogen.

Tetrahydrofuran – The National Toxicology Program has reported that exposures of mice and rats to THF vapor levels up to 1800 ppm 6hr/day, 5 days/week for their lifetime caused an incidence of kidney tumors in male rats and liver tumors in female mice. The significance of these findings for human health are unclear at this time, and may be related to "species specific" effects. Elevated incidences of tumors in humans have not been reported for THF.

**Toxicology Data**

**Ingredient Name**

**Methyl Isobutyl Ketone**
- Oral-Rat LD50: 2737 mg/kg
- Inhalation-Rat LC50: 23,500 mg/m3/8H

**Section 13 – Disposal Considerations**

**Waste Classification:** RCRA classified hazardous waste. Dispose of absorbed materials and liquid waste in approved, controlled incineration facility in accordance with all local, state and federal regulations.

**Disposal Method:** Incineration.

**Section 14 – Transportation Information**

**DOT:** UN1133, Adhesives, Class 3, PG II, ERG#127.
Quarts and less: Consumer Commodity, ORM-D

**Ocean (IMDG):** UN1133, Adhesives, Class 3, PG II, EMS-No: F-E, S-D
Quarts and less: Adhesives, Class 3, UN 1133, PG II, Limited Quantities or Ltd. Qty.

**Air (IATA):** UN1133, Adhesives, Class 3, PG II, ERG#127

**WHMIS (Canada):** Class B-2
