**Description**

Renewz is a non-acid cleaner for finned, air-cooled condenser coils. Its surfactant-aided foaming action lifts contaminants, including cooking greases & tobacco stains on air filters. Biodegradable & can be used for electronic air filters.

Renewz leaves aluminum surfaces clean bright and shiny in less than five minutes. The foaming action then floats all loosened material out of areas of the coil which are normally inaccessible, to where they can easily be rinsed away with low pressure water. Cleaning dirty coils with Renewz reduces high head compressor pressures, avoids premature equipment breakdown, increases equipment efficiency and decreases power consumption and costs. The need for high-pressure washers, which can bend fins and wedge contaminants into deep recesses of the coil is eliminated. Renewz is also highly effective for cleaning electronic air filters, thus avoiding possible damage from high pressure steam cleaning.

**Applications**

Leaves aluminum bright, shiny and clean in under 5 minutes, Loosens material in hard-to-reach places, Renewz may be safely used on aluminum, copper or stainless steel and will not damage if used as directed. Industrial use only by trained personnel.

**Characteristics | Features**

- High-foaming action penetrates stubborn grease, tars and dirt, solubilizes and disperses them so they can be rinsed away with water
- Concentrated - dilute with water for economical use
- Leaves aluminum surfaces not only bright and shiny, but completely clean and free of particulate matter in less than five minutes.
- Will not harm copper or aluminum
- Contains corrosion inhibitor
- Available in Blue or Brown

Suggestions and recommendations covering the use of our products are based on our past experience and laboratory findings. However, as we have no control as to the methods and conditions of application, we only assume responsibility for the uniformity of our products within manufacturing tolerances.

**FOR PROFESSIONAL USE ONLY. USE ON CONDENSER COILS ONLY. DO NOT USE ON EVAPORATOR OR HEAT EXCHANGE COILS.**

For additional information, refer to Safety Data Sheet.
