**Description**

Foam-A-Coil Aerosol removes grime, oil grease and dust from small air cooled condensers found on ice machines, as well as from small evaporator coils, permanent filters and window units. A powerful, emulsifying surface-active foam takes just minutes to lift grease and dirt off normally inaccessible surfaces, restoring operating efficiency, decreasing power consumption and costs, and reducing risk of equipment failure.

**Instructions**

1. Shake well before using.
2. Spray area thoroughly and allow to soak for several minutes.
3. Wipe clean or flush with water.

Special Notes: On waxed and painted surfaces, Foam-A-Coil should be rinsed off within a minute of application to avoid the possibility of removing the wax or fading the paint.

**Recommended For**

Evaporator Coils, Condenser Coils, Air Conditioning Units, Air Handlers and Window Units

**Application**

Degreaser, Cleans Grime, Lifts Oil, Non-Corrosive

**Characteristics | Features**

- Foaming action penetrates stubborn grease, tars and dirt. It disperses them so they can be rinsed away with water.
- Biodegradable
- Non-Acid, can be use indoors and outdoors
- Will not harm copper or aluminum
