Hospital stays are rarely an enjoyable experience

For starters, you probably aren't feeling well or are receiving some kind of treatment. On top of that, costs add up quickly—from medical bills; to travel, food and lodging costs; to the day-to-day expenses that don't stop while you're in the hospital. That's where Hospital Indemnity Insurance can help.

What is Hospital Indemnity Insurance?

Hospital Indemnity Insurance pays a daily benefit if you have a covered stay in a hospital*, on or after your coverage effective date. The benefit amount is determined based on the type of facility and the number of days you stay. This is a limited benefit policy. Hospital Indemnity Insurance is not health insurance and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.

* A hospital does not include an institution or part of an institution used as: a hospice unit, including any bed designated as a hospice or swing bed; a convalescent home; a rest or nursing facility; a free-standing surgical center; an extended care facility; a skilled nursing facility; or a facility primarily affording custodial, educational care, or care for the aged, or care or treatment for persons suffering from mental diseases or disorders, or drug or alcohol addiction.

How can Hospital Indemnity Insurance help?

You can use the benefit however you would like. While coverage amounts may vary, below are a few examples of how you could use your benefit:

- Out of pocket medical expenses, such as deductibles and copays
- Travel, food and lodging expenses for family members
- Child care
- Everyday expenses like utilities and groceries

How much does it cost?

The cost of Hospital Indemnity Insurance varies. It is very likely that your monthly premium will be less than your monthly lunch budget.

Do I need to provide health information when I apply?

No. Hospital Indemnity Insurance is guaranteed-issue coverage. Pre-existing condition limitations may apply.

Why should I enroll through my employer?

- Premium amounts are deducted from your paychecks, so you don't have to worry about paying another bill.

Meet the Harrises

Both in their early 40s, Maureen and Steve thought their days of endless diaper changes and middle of the night feedings were over—until one day when they were thrilled to find out they'd be adding one more to their brood. Nine months later, after a lengthy labor and delivery, little Josh came into the world, officially completing their family. The benefit the Harrises received from the Hospital Indemnity Insurance Maureen has carried for the past five years were used to help cover the medical deductibles and copays she incurred during the three-day hospital stay.

\$2,000	Health insurance deductible
\$2,400	Co-insurance for 3-day hospital stay (\$12,000 x 20%)
\$4,450	Total out-of-pocket expenses
\$600	Total Hospital Indemnity Insurance benefit paid under Maureen's policy (\$200 daily confinement benefit / 3 days)

The amounts shown above are for illustrative purposes only. Actual results may vary. Your employer may offer different benefit amounts or options.

What are pre-existing conditions and are they covered*?

A pre-existing condition is a sickness, injury or physical condition for which you received medical treatment, consultation, care or services (including diagnostic measure) during the first 12 months** prior to your coverage effective date. For the first 12 months** after your coverage effective date or any increase in coverage, we will not pay benefits for a confinement resulting from a pre-existing condition. After the first 12 months** of coverage or any increase in coverage, benefits are payable for any eligible confinement even if resulting from a pre-existing condition.
