**CAUTION:** This fertilizer contains boron. Its use on any crops or under conditions other than those recommended may result in serious injury to the crops.

**NOTE:** This product contains micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly. **DO NOT WASH OFF WITH WATER.**

**PRODUCT INFORMATION:** MicroNourish Fe is a micronutrient formulation for foliar application for all crops. MicroNourish Fe is formulated with a unique carbon source designed to enhance nutrient uptake.

**DIRECTIONS FOR USE:** Use in accordance with recommendations of a qualified individual/institution. Do not allow to freeze. MicroNourish Fe is compatible with many crop protection products as a tank mix partner. The Andersons recommends a compatibility (jar) test before field mixing and application. Always read and follow all individual product labels before use. For more information, visit [AndersonsPlantNutrient.com/Tank-Mix](http://AndersonsPlantNutrient.com/Tank-Mix).

**Foliar Application:** Fill spray tank with water prior to adding fertilizer or other products. Use only as a supplement to a regular nutrient management program. Repeat applications may be beneficial. Use only as directed to avoid foliar burn. Do not apply when crop is excessively stressed for moisture or during periods of high temperatures. Use of a surfactant may enhance leaf coverage and increase nutrient absorption.

**RECOMMENDED RATES:** This product should be used on the basis of a soil and/or tissue analysis. Suggested application rates are for one growing season (gallons per acre) in the absence of soil and/or tissue analysis.

	Application	Use Rate (per acre)	Timing
Field & row crops; vegetables	Foliar	1-2 quarts	Post emergence
Turf	Foliar	1-3 quarts (0.75-2 ounces/1000 ft²)	Every 7-14 days or to correct nutrient deficiencies

**STORAGE:** MicroNourish Fe may be corrosive to aluminum, mild steel, and brass. Store and/or ship in HDPE polypropylene, fiberglass or stainless steel containers. Use only stainless steel or PVC fittings.
