FREQUENTLY ASKED QUESTIONS

Q: Can I mix Corn Mix with my starter product?

A: Yes, applying Corn Mix with starter fertilizer at planting time helps prevent early-season crop deficiencies.

Q: Can I tank mix Corn Mix with crop protection products?

A: Yes, it is compatible with most popular pesticides.

Q: Why use a chelated micronutrient?

A: EDTA chelates protect zinc, manganese, calcium, copper and iron from 'tie-up' in the soil.

Q: Can Corn Mix be mixed with crop protection products?

A: Yes, Corn Mix is compatible with many crop protection products as a tank mix partner. The Andersons recommends a compatibility (jar) test before field mixing and application. Always read and follow all individual product labels before use. For more information, visit AndersonsPlantNutrient.com/Tank-Mix.
