

MICROBLITZ[®]

MicroBlitz is a micronutrient formulation for foliar or soil application for all crops. This product is also recommended for all crops where boron is beneficial. MicroBlitz is formulated with a unique carbon source designed to enhance nutrient uptake.

FEATURES & BENEFITS

- **A complete micronutrient blend that includes fulvic acid for enhanced efficiency**
- **May be applied with glyphosate and other herbicides**
- **Cost-effective**
- **Highly clean, pure, true solution**
- **Great for all crops**
- **Foliar applied and immediately available to the plant**
- **Aids in the relief of plant stress**

FREQUENTLY ASKED QUESTIONS

Q: Can MicroBlitz be mixed with crop protection products?

A: Yes, MicroBlitz is compatible with many crop protection products as a tank mix partner. The Andersons recommends a compatibility (jar) test before field mixing and application. Always read and follow all individual product labels before use. For more information, visit AndersonsPlantNutrient.com/Tank-Mix.

Q: When should I use MicroBlitz?

A: On corn, apply with herbicide from V2-V10. On soybeans, apply with herbicide from V6-R5.

Q: Why does MicroBlitz include carbon?

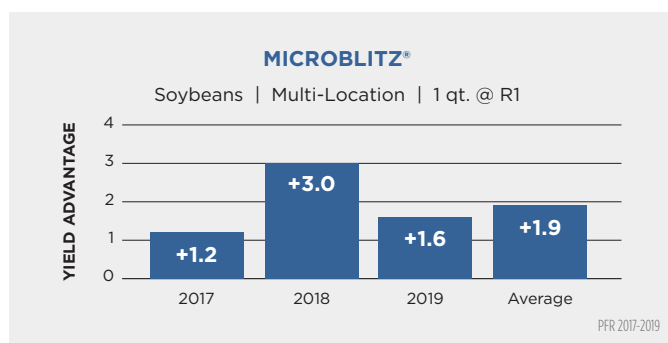

A: Carbon improves foliar contact by increasing absorption.

Q: Does MicroBlitz provide all of my crop's foliar micronutrient needs?

A: While MicroBlitz contains many essential micronutrients, additional soil and tissue analysis may be necessary to ensure total crop needs are being met.

Q: Will alfalfa benefit from an application of MicroBlitz?

A: Yes, apply MicroBlitz with an insecticide 5-10 days after cutting. An application of MicroBlitz at this time will increase alfalfa yield by tonnage and quality.

Beck's Practical Farm Research (PFR[®]) trials tested MicroBlitz at a rate of 1 qt per acre applied foliar at the R1 growth stage in soybeans. This application of MicroBlitz had a positive yield increase for 3 consecutive years of testing, earning MicroBlitz the PFR Proven[™] stamp.

CORN APPLICATION

GUARANTEED ANALYSIS

Total Nitrogen (N)	11.0%
0.9%...Ammoniacal Nitrogen	
10.1%...Water Soluble Nitrogen	
Available Phosphate (P ₂ O ₅)	8.0%
Soluble Potash (K ₂ O)	5.0%

V3-R1

R1-R4

Mix and apply with herbicide

Mix and apply with fungicide/insecticide

To see how MicroBlitz fits into our High Yield Programs, visit AndersonsPlantNutrient.com/HighYield

	Application	Use Rate (per acre)	Timing
Field & row crops	Foliar	1-4 quarts	Post emergence
	Soil (in furrow)		At Application
Turf	Foliar	1-4 quarts (1.5-6.0 ounces/1000 ft ²)	Every 7-14 days or to correct nutrient deficiencies

Visit AndersonsPlantNutrient.com/Tank-Mix to view approved products for tank mixing with specific herbicides.
