FREQUENTLY ASKED QUESTIONS

Q: Can I mix MicroNourish with other products?

A: Yes, MicroNourish is extremely compatible with glyphosate, herbicides, and other nutrients.

Q: Why does MicroNourish contain humectant?

A: Humectant improves foliar contact by increasing absorption.

Q: When should MicroNourish be used?

A: On corn, apply with glyphosate from V2-V10. On soybeans, apply with glyphosate from V6-R5.

Q: Can MicroNourish be mixed with crop protection products?

A: Yes, MicroNourish is compatible with many crop protection products as a tank mix partner. The Andersons recommends a compatibility (jar) test before field mixing and application. Always read and follow all individual product labels before use. For more information, visit AndersonsPlantNutrient.com/Tank-Mix.
