BORON 10%

LIQUID BORON PRODUCTS

PRODUCT INFORMATION

Boron 10% is recommended for the prevention and correction of boron deficiency in all crops. Boron 10% is recommended for use on all soil types. The preferred use is soil application to prevent the deficiency, although it may also be used as a foliar for correction.

FEATURES

- For use on all crops
- Highly clean, pure, true solution

BENEFITS

- Necessary for protein synthesis
- Vital in pollination and fruit and seed production
- Essential in cell division and development of root systems
- Designed for use with liquid fertilizers and EezyCal 10% liquid calcium
- Prevents and corrects boron deficiencies

FREQUENTLY ASKED QUESTIONS

Q: Can Boron 10% be used on seed in pop-up applications?

A: Boron 10% is not recommended for pop-up application. Contact your dealer to find out how to safely apply Boron 10%.

Q: Is the boron chelated?

A: Boron is anionic (negatively charged). Therefore, it cannot be chelated.

Q: Should I be concerned about compatibility with Boron 10%?

A: Boron should not be used in a solution where crop protection products packaged in water soluble bags are being used. Most other fertilizer and crop protection uses should not present a compatibility issue, however, a jar test is always recommended.

Q: Can Boron 10% be mixed with crop protection products?

A: Yes, Boron 10% is compatible with many crop protection products as a tank mix partner. The Andersons recommends a compatibility (jar) test before field mixing and application. Always read and follow all individual product labels before use. For more information, visit AndersonsPlantNutrient.com/Tank-Mix.

GUARANTEED ANALYSIS

Boron (B)..... 10.0%
10.0%...Water Soluble Boron

Derived from: boric acid

PHYSICAL PROPERTIES

pH..... 8.2
Specific Gravity..... 1.33 @ 68°F
Density..... 11.1 lbs/gal
Salt Out 11°F

APPLICATION

	Application	Use Rate (per acre)	Timing
Field & row crops	Planting	Not recommended for use in furrow	Add to fertigation/pesticide program
	2x2 or Side-dress	1-2 quarts, not to exceed 8 quarts total/year	
	Foliar	1-2 pints, not to exceed 8 quarts total/year	
Tree & bramble fruits; nut trees, other fruits	Soil (Broadcast)	1-2 quarts	
	Foliar	1 pint/100 gallons of water
