

Foltec[®] LQ

— ULTRA —

SeaThru[™] with Fulvic Acid

- Readily absorbed by leaves and roots
- Enhance efficiency of plant metabolic processes
- Enhance absorption of nutrients
- Naturally derived carbon source

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Guaranteed Analysis - Soil Amending Ingredients

50.00%	SeaThru (Ascophyllum Nodosum Extract - derived from seaweed)
2.00%	Fulvic Acid (derived from leonardite)
48.00%	Total Other Ingredients

Purpose Statement:

Fulvic acid is readily absorbed by leaves and roots. Enhances absorption of nutrients and enhances efficiency of plant metabolic processes. SeaThru (Ascophyllum Nodosum Extract) improves soil microbial activity. Improves root growth and seed germination.

Foltec® LQ

ULTRA

SeaThru with Fulvic Acid

DIRECTIONS FOR USE: Shake well before using.

Turf Applications: Foltec LQ Ultra SeaThru with Fulvic Acid may be applied as a foliar spray application on all turf grasses (cool, transitional, and warm season) including lawns, athletic fields and golf courses: fairways, greens, and tees. Apply anytime during the growing season, from the time turf starts greening up in spring until active growth stops in late fall. Foltec LQ Ultra SeaThru with Fulvic Acid is most effective as part of a sound fertility program when used continually to wet or dry foliage. Multiple applications enhance performance of this product. A sound fertility program is most effective when used continually in conjunction with dispersible granular nutrition products spaced throughout the growing season. Consult your Andersons territory manager or distributor sales representative for a customized application program utilizing Andersons granular and fluid fertilizer products.

This product should be applied as a spray solution with a total volume of 1-2 gallons/1,000 sq. ft.

Cool Season Turf Application Rates: (3-4 fluid ounces product/1,000 sq. ft.) may be repeated at 7-14 day intervals.

Warm Season Turf Application Rates: (4-8 fluid ounces product/1,000 sq. ft.) may be repeated at 7-14 day intervals.

Tank Mixing: Shake or agitate product before use. Add ½ of the total water to the spray tank. Activate sprayer agitation, measure appropriate volume of Foltec LQ Ultra SeaThru with Fulvic Acid concentrate and add to the spray tank. Bring spray tank to total volume of water. Adequate agitation is required to keep product in suspension. If tank mixing with pesticides, test compatibility before adding to spray mix. Perform a small jar test.

Tree and Ornamental Applications: Foliar Sprays: May be used in foliar tree and shrub feeding program and applied in conjunction with a crop protection chemical program. It is recommended to do a "jar test" for compatibility. A suggested rate of application is one gallon of product per 100 gallons of spray solution. For concentrated sprays of less than 100 gallons, reduce the rate of product to stay within the recommended solution ratio. **CAUTION** - should be exercised by the professional applicator before applying Foltec LQ Ultra SeaThru with Fulvic Acid to sensitive trees and shrubs.

Fertigation: For fairway turf, follow rates recommended by fertigation equipment and existing fertility program. For horticultural applications, follow Best Management Practices for crop being grown and the type of fertigation equipment being used. Take into account other products being applied through fertigation equipment prior to using Foltec LQ Ultra SeaThru with Fulvic Acid product.

Precautions: Test chemical compatibilities before tank mixing. Do not apply to foliage of any plant when temperatures are likely to approach or exceed 90°F. Avoid applications during high stress periods, or when plants are not actively growing, or during hot, dry periods of the day. Recommended for use only on established turf areas.

Storage and Use:

Store in a cool dry place. Do not store in temperatures above 95°. Keep from freezing. Use product within 12 months of purchase.

IMPORTANT: READ BEFORE USE: Read the entire Directions for Use and the Warranty Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or Buyer accepts the following Warranty Disclaimer and Limitation of Liability:

WARRANTY DISCLAIMER and LIMITATION of LIABILITY: Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions. Manufacturer makes NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. To the extent consistent with applicable law, it is Manufacturer's intent to LIMIT ANY LIABILITY FOR SPECIAL, CONSEQUENTIAL OR INCIDENTAL ECONOMIC DAMAGES to refund of purchase price or replacement of product, at Buyer's choice. To the extent consistent with applicable law, Manufacturer DISCLAIMS ANY LIABILITY FOR COMPENSATORY OR OTHER DAMAGES ARISING OUT OF ANY USE CONTRARY TO LABEL DIRECTIONS.

LEGAL RIGHTS: THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS; YOU MAY HAVE OTHER RIGHTS THAT VARY FROM STATE/JURISDICTION TO STATE/JURISDICTION.
