FOLTEC® FOLIAR NUTRITION | LIQUIDS

FOLTEC® LQ ULTRA SEATHRU® WITH FULVIC ACID

- A premium foliar-feeding product
- Designed with the highest-quality ingredients for use on premium turfgrass such as golf courses and sports turf
- SeaThru clear kelp extract delivers a highly-soluble formulation without the unwelcome smells
- Provides naturally-derived fulvic acid
- Built to boost turfgrass pre-stress conditioning, increase efficiency of plant metabolic processes, enhance nutrient absorption, and improve root growth
- Readily absorbed by leaves and roots
- Can also be used on trees and ornamentals
- Fully soluble and free-flowing; will not clog nozzles/filters

PRODUCT CODE ASPSEAFUL2X25 / 10004714

DESCRIPTION Foltec LQ Ultra SeaThru with Fulvic Acid

N SOURCE Soybean meal, sodium nitrate

APPLICATION Spray-apply or apply through fertigation
Cool-season turf: 3-4 oz/1,000 sq. ft.
