

MICROSOLUTIONS

AGRO MIX EDTA CHELATED SOLUTIONS

Product Code: 10008281 (Tote) / 10008282 (Jug) / 10008243 (Bulk)

GUARANTEED ANALYSIS

Boron (B)	0.15%
Copper (Cu)	
Iron (Fe)	0.3%
Manganese (Mn)	
Molybdenum (Mo)	
Zinc (Zn)	

Derived from: boric acid, copper EDTA, iron EDTA, sodium molybdate, manganese EDTA, zinc EDTA.

NOTE: This product contains micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly. DO NOT WASH OFF WITH WATER.

WARNING: This fertilizer contains boron. Its use on any crops or under conditions other than those recommended may result in serious injury to the crops.

CAUTION: The application of fertilizing materials containing molybdenum may result in forage crops containing levels of molybdenum which are toxic to ruminant animals.

PRODUCT INFORMATION: MicroSolutions Agro Mix is a micronutrient package intended for the prevention and/or correction of boron, copper, iron, manganese, molybdenum and zinc deficiencies. It can be applied alone or in combination with compatible agriculture chemicals or liquid fertilizers, including those containing 100% orthophosphate and suspensions. For farm use only.

DIRECTIONS FOR USE: Use in accordance with recommendations of a qualified individual/institution. Do not allow to freeze. Agro Mix is compatible with many crop protection products as a tank mix partner. The Andersons recommends a compatibility (jar) test before field mixing and application. Always read and follow all individual product labels before use. For more information, visit AndersonsPlantNutrient.com/Tank-Mix.

Soil Application: Apply in-furrow, 2x2, or at sidedress or topdress. Agro Mix, by itself, should not be applied directly on the seed.

Foliar Application: Fill spray tank with water prior to adding fertilizer or other products. Use only as a supplement to a regular nutrient management program. Repeat applications may be beneficial. Use only as directed to avoid foliar burn. Do not apply when crop is excessively stressed for moisture or during periods of high temperatures. Use of a surfactant may enhance leaf coverage and increase nutrient absorption.

RECOMMENDED RATES: This product should be used on the basis of a soil and/or tissue analysis. Suggested application rates are for one growing season (gallons per acre) in the absence of soil and/or tissue analysis.

	Application	Use Rate (per acre)	Timing
Fald 0 minute black	Soil	1-2 quarts	
Field & row crops; vegetables	Foliar	1-2 pints	Add to fertilizer or
Tree & bramble fruits, nut trees,	Soil	1-2 quarts	mix with water
other fruits	Foliar	1 pint/100 gallons of water	

STORAGE: Store in fiberglass, stainless steel, or poly tanks. Do not store in carbon steel tanks. All forms of copper react with carbon steel. This reaction could cause red or black copper to drop out, decreasing the copper analysis.

WARNING

CAUSES SKIN, RESPIRATORY AND SERIOUS EYE IRRITATION. HARMFUL IF SWALLOWED.

PRECAUTIONARY STATEMENTS:

- Wear protective gloves and clothing
 Remove contaminated clothing and wash
- before reuse
- Avoid breathing vapors/mists
 Use only outdoors or in well-ventilated area
- Call poison control or seek medical attention if
- Call poison control or seek medi vou feel unwell
- Wash thoroughly after handling
- Do not eat, drink or smoke when using this product

FIRST AID MEASURES:

- If inhaled: Move victim to fresh air. Seek medical attention if irritation persists.
- If on skin: Wash affected areas with soap and water. Seek medical attention if irritation persists. Wash contaminated clothing before re-use.
